10-24 LED SM

The lighthead for the 24w LED is machined from aluminum, then black hard-coated to allow for optimal heat sinking. 52" (132 cm) cord with a 90° wire connection from the lid to the lighthead allows for proper sidemount routing.

Powered by two 5.2aH (57.5wH) Li-Ion batteries
260 minutes of burn time

2000 Lumen output at 6000 Kelvin

Length 9" (22.7 cm)

Diameter 3" (7.62 cm)

Dry Weight - 4.5 lbs (2 kg)

Negative in Water - 1 lbs (.45 kg)

Recharge time from complete discharge - 6 hours

UN 38.3 Test Compliant

BATTERY IS SAFE FOR AIR TRANSPORT
